

McCarter Park vacant space adjacent to playground

Located next to existing walking trail and workout stations, in sight of playground

McCarter Park vacant space adjacent to playground

Located next to existing walking trail and workout stations, in sight of playground

Several factors

including

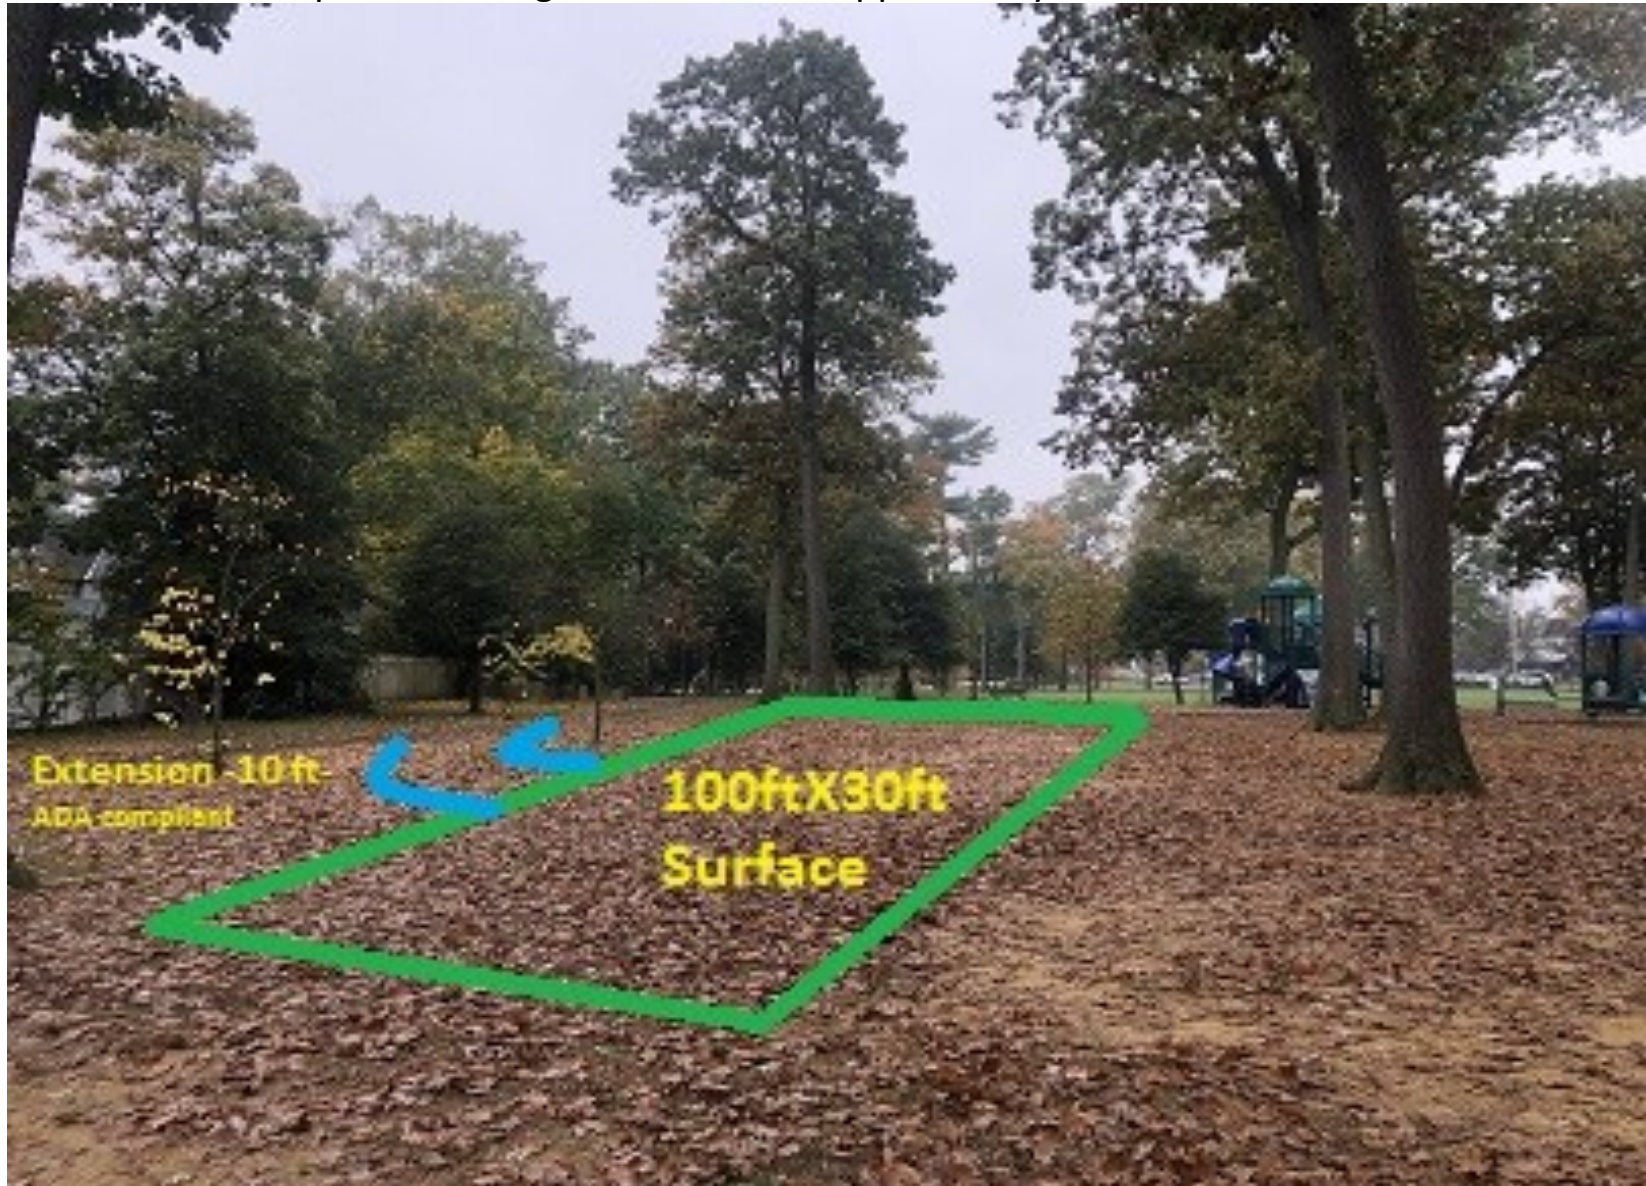

-sandy soil composition–
have made sustained
grass growth very difficult,
rendering this space
unusable for
recreational activity

Layout :100 ft X 30 ft *Not to scale/exact location to slightly differ

Located next to existing walking trail and workout stations, in sight of playground

ADA compliant walking trail extension. Approved by Recreation Committee.

Example from a similar park:
Old Surfacing on left... new surfacing on right

Press Release- New surfacing complete -

THE PLAN DOES **NOT** CALL FOR ANY TREE REMOVAL or disruption of roots

Our turf rehabilitation project at Church Square Park is complete and the new turf is ready to go! It's the latest example of upgrades we're making in our City parks. More to come!

Surfacing cutoff AROUND the trees

THE PLAN DOES **NOT** CALL FOR ANY TREE REMOVAL or disruption of roots

New surfacing allows space to be used for

- Work out zone
- Various types of play for friends, family, and schoolmates
- Shaded lounging
- Yoga
- Ball sport play
- Toddler camps
- Senior fitness classes

Grass areas wet?

No problem!

-Excellent draining-

This is the only facility in Fair Haven that will allow for passive use 365 days a year

**minus snow*
