PART 1: HOUSING ELEMENT

INTRODUCTION

In the case of Southern Burlington County NAACP v. the Township of Mount Laurel, (commonly known as Mount Laurel I), the New Jersey Supreme Court held that developing municipalities in New Jersey have a constitutional obligation to provide a realistic opportunity for the construction of low- and moderate-income housing in their communities. In its Mount Laurel decision, decided on January 20, 1983 (Mount Laurel II), the Supreme Court expanded the Mount Laurel doctrine by determining that this constitutional responsibility extended to all municipalities in New Jersey. The Court also established various remedies, including the “builder remedy” or court-imposed zoning, to ensure that municipalities affirmatively addressed this obligation if they refused to comply voluntarily.

In response to the Mount Laurel II decision, the New Jersey Legislature adopted the Fair Housing Act in 1985 (Chapter 222, Laws Of New Jersey, 1985). Through the Fair Housing Act, the State reemphasized the desirability of voluntary municipal compliance. The Fair Housing Act established the Council on Affordable Housing (COAH) as an administrative alternative to the courts. COAH was given the responsibility of dividing the state into housing regions, determining regional and municipal fair share affordable housing obligations, and adopting regulations that would establish the guidelines and approaches that municipalities may use in addressing their affordable housing need. COAH drafted regulations and calculated fair share for Round 1 (1987-1993) and again in Round 2. However the Round 2 methodology was cumulative (1987-1999) and that period is now commonly referred to as the “Prior Round”.

In Round 3, COAH adopted regulations in 2004 and 2008 that were ultimately invalidated by the Court. COAH then attempted to, but failed, to adopt new Round 3 regulations in 2014, which lead to the Supreme Court's decision, entitled In re Adoption of N.J.A.C. 5:96 & 5:97 by the N.J. Council on Affordable Housing, 221 N.J. 1 (2015) (“Mount Laurel IV”), in which it held that since COAH was no longer functioning, trial courts were to resume their role as the form of first instance for evaluating municipal compliance with Mount Laurel obligations, and also established a transitional process for municipalities to seek a Judgment of Compliance and Repose (“JOR”) in lieu of Substantive Certification from COAH.

This Housing Element and Fair Share Plan for the Borough of Fair Haven has been prepared in accordance with applicable laws.

In 2018, the Borough hired Heyer Gruel Associates followed shortly thereafter by Jeffrey R. Surenian and Associates. Since that time, the Borough has formed a Mount Laurel subcommittee and has met regularly to determine how best to comply voluntarily and comprehensively with its Mount Laurel affordable housing obligations. This plan is a product of an extensive deliberation process spanning almost one year. The plan represents the most responsible way for the Borough to implement its comprehensive planning vision for its community.

This Housing Element and Fair Share Plan will set forth policies and strategies to fulfill the Borough's Affordable Housing obligation.

Under COAH Prior Round regulations, low income households are defined as those with incomes no greater than 50 percent of the median household income, adjusted for household size, of the housing region in which the municipality is located, and moderate-income households are those with incomes no greater than 80 percent and no less than 50 percent of the median household income, adjusted for household size, of the housing region. For the Borough of Fair Haven, the housing region is defined by COAH as Region 4 and is comprised of Mercer, Monmouth and Ocean counties.

PLANNING FOR AFFORDABLE HOUSING

Pursuant to both the Fair Housing Act (52:27D-310) and the Municipal Land Use Law (MLUL) N.J.S.A. 40:55D-28, municipalities in New Jersey are required to include a housing element in their master plans. The principal purpose of the housing element is to describe the specific, intended methods that a municipality plans to use in order to meet its low and moderate income housing needs. Further, the housing element is meant to demonstrate the existing zoning or planned zoning changes that will allow for the provision of adequate capacity to accommodate household and employment growth projections, to achieve the goal of access to affordable housing for present and future populations. The statutorily required contents of the housing element are:

- a. An inventory of the municipality's housing stock by age, condition, purchase or rental value, occupancy characteristics, and type, including the number of units affordable to low and moderate income households and substandard housing capable of being rehabilitated;
- b. A projection of the municipality's housing stock, including the probable future construction of low and moderate income housing, for ten years, taking into account, but not necessarily limited to, construction permits issued, approvals of applications for development and probable residential development of lands;
- c. An analysis of the municipality's demographic characteristics, including but not necessarily limited to, household size, income level and age;
- d. An analysis of the existing and probable future employment characteristics of the municipality;
- e. A determination of the municipality's present and prospective fair share for low and moderate income housing and its capacity to accommodate its present and prospective housing needs, including its fair share for low and moderate income housing; and
- f. A consideration of the lands that are most appropriate for construction of low and moderate income housing and of the existing structures most appropriate for conversion to, or rehabilitation for low and moderate income housing, including a consideration of lands of developers who have expressed a commitment to provide low and moderate income housing.

MUNICIPAL SUMMARY

The Borough of Fair Haven is a 2.1 square mile developed community located in the eastern part of New Jersey in the County of Monmouth. The Borough is surrounded by Red Bank to the west, Little Silver to the south, Rumson to the east, and the Navesink River to the north.

The Borough adopted its first Housing Plan in 1991 as an Element of the Borough's 1991 Master Plan. Fair Haven subsequently adopted a Housing Plan Element and Fair Share Plan in 1997 and 2006. Since 2006, the Borough adopted the 2007 Housing Plan and Supporting Documents.

According to the 2010 Census, Fair Haven's population was 6,121, which represents an increase of 3.1 percent from 2000. The US Census Bureau 2012-2016 American Community Survey estimates a total population of 6,033. The median age in 2010 was 39.3 years, and the average household size increased slightly from the 2000 level of 2.97 persons to 3.11 persons in 2010.

The housing stock of the Borough is predominantly single-family detached dwelling units. A majority of the housing structures were built in the 1950s. According to the guidelines established by COAH, the Borough is located in Housing Region 4, a region that consists of Mercer, Monmouth, and Ocean counties. Based on the 2018 COAH Regional Income Limits, the median income in Region 4 for a four-person household is \$99,206, the moderate-income is \$79,368, and the low-income is \$49,605.

According to the March 2018 Judge Jacobson methodology as calculated by Econsult, Fair Haven has a Rehabilitation obligation of 0, a Prior Round obligation (1987-1999) of 135, a GAP Period (1999-2015) obligation of 111, and a Prospective Need (2015-2025) of 125 units.

Since the Borough is a developed municipality, the Borough is entitled to a vacant land adjustment pursuant to N.J.A.C. 5:93-4.2. As a result, the Borough has a Realistic Development Potential (RDP) of 1 unit and an unmet need of 370 units.

The Borough proposes to address its 1 unit RDP through the creation of two affordable units on the DPW site, as explained below, one of which will apply to the RDP and one of which will apply to the unmet need.

In accordance with COAH standards on the unmet need, the Borough will address its 370 unmet need through the following mechanisms:

- DPW Site(1 unit surplus)
- Business District Overlay
- Methodist Church Overlay

- Accessory Apartment Ordinance (for up to 10 units)
- Borough-wide mandatory set aside ordinance

DEMOGRAPHIC CHARACTERISTICS

Population

The population trends experienced in Fair Haven, Monmouth County, and the State of New Jersey from 1930 through 2010 are shown below as well as the 2016 population estimate from the U.S. Census Bureau American Community Survey. There were 6,121 residents in Fair Haven in 2010, which was an increase of 184 people, or 3.1 percent, from 2000. Fair Haven experienced a growth of over half (59.5%) its' population between 1950 and 1960. Since 1960, Fair Haven's population has fluctuated, with the 1990s experiencing the significant growth (12.7%). Monmouth County and the State, have experienced continued growth since 1930. Similar to Fair Haven, both the County and State saw significant population increases during the 1990s.

Population Trends

Population Composition by Age

The median age of the residents in Fair Haven in 2010 was 39.3 years. An analysis of age group characteristics provides insight into the actual changes in population. This comparison is helpful in determining the potential impacts on housing needs, community facilities, and services for the Borough. As detailed in the following table, the entire composition of Fair Haven experienced notable shifts since 2000. The most significant change occurred in the 55 to 64 age cohort, which increased by 41.8 percent between 2000 and 2010. The 15 to 24 age cohort and the 45 to 54 age cohort both increased significantly by 39.4 percent and 28.5 percent, respectively. However, the 25 to 34 age cohort decreased significantly by 41.3 percent or 213 persons between 2000 and 2010.

Population by Age 2000 and 2010, Borough of Fair Haven

Monmouth County experienced population fluctuation as well, but not significantly between 2000 and 2010 as experienced in the Borough. The most significant increase also occurred in the 55 to 64 age cohort, which increased by 45.3 percent. The 45 to 54 age cohort also increased by 20.3 percent, and the 15 to 24 age cohort by 16.1 percent. Similar to Fair Haven, the under 5 years cohort decreased by 17.7 percent and the 35 to 44 age cohort decreased by 22.5 percent.

Households

A household is defined as one or more persons, either related or not, living together in a housing unit. In 2010 there was a total of 1,970 households in Fair Haven. Roughly 40 percent of the households were occupied by two persons or less. The average household size in the Borough in 2010 was 3.11, which is slightly higher than that of the County's average (2.66). Both the Borough's and the County's largest percentage of households were the two-person household, comprising of 26.2% and 30.0% of all households, respectively. The Borough's second most common household size was four-person households which comprised of 25.3 percent of all households in the Borough. The County's second most common household size was one-person households (25 percent of all households).

Household Size- Occupied Housing Units, 2010 Borough of Fair Haven and Monmouth County				
	Borough		County	
	Number	Percent	Number	Percent

Family households are defined as two or more persons living in the same household, related by blood, marriage or adoption. They do not include same-sex married couples. Most households in the Borough in 2010 were family households, comprising 63.4 percent of all households. The average family size was 3.1 persons. The majority of family households (81.9%) were married-couple families, of which over half (59.1%) had no children under the age of 18. Over 30 percent of the households were one-person households, with 42.7 percent male householders and 57.3 percent female householders.

In providing more detail of American households, the 2010 Census includes the sub-groups of non-traditional households: Other family and Non-family households. "Other" family households made up 11.5 percent of all households, of which 160 (74.4%) were female households with no husband present. "Non-family" households are defined as households that consist of a householder living

alone or sharing the home exclusively with people whom he/she is not related. Non-family households comprised approximately 3.1 percent of all households in the Borough.

Household Size and Type, 2010 Borough of Fair Haven		
	Total	Percent
Total Households	1,970	100.0%
1 person household	272	13.8%

Income

As measured in 2016, Fair Haven had a significantly higher median household income compared to Monmouth County and the State of New Jersey. In 2016, the median income in Fair Haven was \$161,131, roughly \$73,834 more than the County and \$87,429 more than the State's median income.

Per Capita and Household Income		
	2016 Per Capita Income	2016 Medium Household Income
Fair Haven	\$63,854	\$161,131
Monmouth County	\$44,504	\$87,297
New Jersey	\$37,538	\$73,702

Source: 2012-2016 American Community Survey 5-Year Estimates

In 2016, over 89 percent of all households in the Borough earned \$50,000 or more with the largest percentage (37.1%) earning \$200,000 or more. This percentage was followed by those households that earned \$100,000 to \$149,999 (21.9%) and finally those who earned \$150,000 to \$199,999 (16.7%). About 6 percent of households earned less than \$35,000. In Monmouth County, the most common income bracket was the \$100,000 to \$149,999 range with roughly 18.6 percent of households earning that much. Roughly 21 percent of households in the County earned less than \$35,000.

Poverty Status

Of the 6,008 persons of Fair Haven's population for which poverty status is determined, 52 individuals, or 0.9 percent, lived in poverty in 2016. Of those in poverty, a majority (55.8%) were in the age range of 18 to 64 years old. About 21.2 percent were children (under the age of 18) and roughly 23.1 percent were seniors (over 65). The County had a significantly higher poverty rate of 7.6 percent.

Household Costs

The following tables show the expenditures of housing for those who own and rent housing in Fair Haven and Monmouth County. Most people in the Borough lived in homes they owned, and according to the 2012-2016 5-year estimates by the ACS, roughly 33.9 percent of all owner-occupied households spent 30 percent or more of their household income on housing. About 29.4 percent of renter-occupied households spent 30 percent or more of their household income on housing. General affordability standards set a limit at 30 percent of gross income to be allocated for owner-occupied housing costs and 28 percent of gross income to be allocated for renter-occupied housing costs.

Similar to Fair Haven, a large majority of Monmouth County residents own their home. Roughly 35 percent of all County owner-occupied homes spent 30 percent or more of their household income on housing, and approximately 54 percent of renter-occupied households spend 30 percent or more of their household income on housing.

EXISTING HOUSING CONDITIONS

Housing Unit Data

Fair Haven's housing stock consists of primarily older structures. In 2010, Fair Haven had a total of 2,065 occupied housing units. A majority of these units (1,825 or 92.6%) were owner-occupied while 145 units (7.4%) were renter-occupied. Housing construction has remained relatively steady from 1930 to present with one-third of all structures (33.3%) being built in the 1950s. The median year of construction for the housing stock in Fair Haven is 1953.

Probable Future Employment Opportunities

The North Jersey Transportation Planning Authority (NJTPA) completes regional forecasts for the New York/New Jersey metropolitan area every four years for populations, households, and employment. The most recent report was released in 2017. Due to the size and location of the Borough, there is minimal opportunity for new job growth. The 2017 NJTPA report predicts Fair Haven's total (private and public sector) employment will increase by 95 jobs by the year 2045, only a 0.3% increase from existing conditions. In addition, the New Jersey Department of Labor releases a Regional Community Fact Book for each county in New Jersey. Between 2010 and 2020, the County is projected to increase its job holding by 23,350 jobs. The healthcare and social services industry is projected to create the most jobs in Monmouth County, adding a predicted total of 4,500 jobs.

PART 2: FAIR SHARE PLAN

INTRODUCTION

The following Fair Share Plan (the Plan) details Fair Haven's Rehabilitation obligation, Prior Round obligation (1987-1999), and Gap + Prospective need (1999-2025). For each obligation, this Plan proposes mechanisms for which the Borough can realistically provide opportunities for affordable housing for moderate-, low-, and very low- income households.

The need for affordable housing in New Jersey is divided into three components:

- *Rehabilitation Obligation* – The Rehabilitation Obligation represents the number of existing housing units that are both deficient and occupied by low and moderate income households. This number is derived from review and analysis of housing conditions reported in the U.S. Census and American Community Survey.
- *Prior Round Obligation* – The Prior Round obligation is the cumulative 1987-1999 fair share obligation determined by 2014 COAH regulations. The First Round and Second Round are mutually referred to as the “Prior Round”.
- *Third Round- Gap + Prospective Need*– July 1, 1999 - June 30, 2025. On January 18, 2017, the Supreme Court decided In Re Declaratory Judgment Actions Filed by Various Municipalities, County of Ocean, Pursuant To The Supreme Court's Decision In In re Adoption of N.J.A.C. 5:96, 221 N.J. 1 (2015) (“Mount Laurel V”). It held that need having accrued during the gap period (1999-2015) should be calculated as part of the present, not prospective need. More specifically, the Supreme Court held that there is an obligation with respect to that period for households that came into existence during that gap that are eligible for affordable housing, that are presently (as of 2015) in need of affordable housing, and that are not already counted in the traditional present need.

As detailed in Part 1, the Borough is relying on the numbers generated in Judge Jacobsen's methodology as extrapolated by multiple experts, including Econsult, as updated through March 2018.

Fair Haven's affordable housing obligations per the March 2018 Jacobsen/Econsult Report are as follows:

Borough of Fair Haven Obligation	
Rehabilitation Obligation	0
Prior Round Obligation	135
Third Round	236
Total Obligation	371

PLANNING CONSIDERATIONS

This section of the Plan discusses the planning goals and policies that were considered and guided the preparation of the Fair Share Plan. The Borough Planning Board adopted a Master Plan Reexamination Report and Master Plan Update on August 25, 2016. The following objectives and recommendations were identified and discussed in the 2016 Plan.

- Provide opportunities for affordable housing and age-restricted housing in the Business District;
- Improve and redevelop the Business District as the "Main Street" of the community;
- Protect and enhance the existing character of the Borough and the residential quality of the neighborhoods;
- Protect, restore and maintain environment/cultural features;
- Plan and implement safe, convenient, and efficient circulation for pedestrians and bicyclists;
- Improve the enforcement of Borough development regulations and monitor compliance with the conditions of development approvals.

In addition, the Mayor and Council approved an Active Transportation Plan in November 2017. Subsequently, the Planning Board adopted the Plan as an element to the Master Plan in March 2018. The comprehensive Plan focuses on bicycling and walking "where these are convenient, comfortable, and safe transportation options for people of all ages and abilities". The following goals are identified and discussed in the Plan:

- Improve safety and driver awareness of bicyclists and pedestrians through infrastructure improvements such as traffic calming;
- Balance the needs of bicyclists, pedestrians and motor vehicles along River Road to enhance access and support a bustling, vibrant local business district;
- Support a Borough-wide network for bicyclists and pedestrians that is comfortable for school children and provides convenient access between residential neighborhoods and schools, parks, and businesses;

- Integrate Fair Haven's bicycle network with the regional network, supporting links to destinations in neighboring Red Bank, Rumson, Sea Bright, and Little Silver;
- Create a clear plan for integrated multimodal networks of safe travel options by foot or bike that can be easily communicated and shared with various constituencies, stakeholders, and partners, and that identifies a broad range of short- and long-term strategies.

This Plan embodies those planning goals and principles and represents a continuation of the Borough's implementation of its vision for the future of its community. The Borough is committed to produce affordable housing in a manner consistent with these goals, including a walkable and bike-friendly downtown. The Borough is also committed to providing housing for its growing aging population, both in terms of market-rate units and affordable units.

CONSIDERATION OF LANDS FOR AFFORDABLE HOUSING

In the deliberative process, the Borough of Fair Haven met with its professionals on multiple occasions throughout 2018 and 2019. In those meetings, the Borough examined zoning, aerials and existing land use maps to determine the sites most appropriate for affordable housing. Due to the lack of developable land, the Borough focused on municipally-sponsored projects to address its Realistic Development Potential (RDP).

The Borough has been evaluating the efficiency of its DPW Facility. One option is the possible reuse of the site as a more compact and efficient DPW facility occupying a smaller footprint, creating "surplus" property available for residential use, including affordable housing. The residential proposal is to create lots and homes that are compatible with the established pattern of the neighborhood, including detached family affordable units.

As to the overlay zoning, the Borough considered all the commercially zoned areas in the Borough, but ultimately determined that overlay zoning was most appropriate in the Borough's western commercial districts. As to the B-1 overlay zone, the Borough determined that a mixed-use concept of no more than three stories was most appropriate to achieve the Borough's planning goals and to maintain a vibrant, walkable downtown while also generating affordable housing. In reviewing its zoning maps, the Borough selected its overlays with great care and with a goal of fostering a comprehensive plan for future redevelopment in the manner it deemed most appropriate for its community.

The eastern commercial district was considered, but not included as an overlay due to substantial planning considerations. This area is constructed by small scale historic buildings on small lots, which create practical limitations and compatibility issues.

Within the B-1 Zone, M & M Realty Partners at Fair Haven ("M&M") is the contract purchaser of Block 31 Lot 1 located at 626 River Road. The site is approximately 28,000 square feet in size. In February of 2019, M & M sent the Borough correspondence proposing to construct a three-story 24-unit family rental development of which 4 units would be affordable housing. The Borough had already considered the land for affordable housing in the context of an extended deliberative process throughout 2018 and 2019. The Borough considered the proposal, but concluded that the best use was still a mixed use concept as previously determined. Since the site is over 20,000 square feet in size, it would conform to the proposed minimum lot size within the proposed overlay zone. In terms of stories, it would conform to the Borough proposal of 3 stories. The M&M proposal however, would not be in conformance with the Borough proposal to require commercial use on the ground floor and the maximum density permitted. Since the Business District is the core of the Borough's downtown commercial area, it was deemed important by the Borough to maintain a walkable commercial core. This goal requires the maintenance and enhancement of the area rather than diluting the business district with residential development on the ground level.

The Borough Overlay proposes a maximum density of 20 units per acre with a 20% setback, over 3 times the presumptive minimum density of 6 dwelling units per acre. Using a density of 20 units per acre with a 20% setback, the site under the Borough proposal would generate 13 units of which 3 would be affordable and would generate the commercial component which the Borough has deemed to be a critical component future plan for development of the area.

REHABILITATION OBLIGATION

The Rehabilitation Obligation, which is part of a municipality's Present Need, was previously determined in N.J.A.C. 5:93-1.3 to be the sum of a municipality's indigenous need, the deficient housing units occupied by low- and moderate-income households, and the reallocated present need, which is the portion of a housing region's present need that is redistributed throughout the housing region. Under the Second Round rules, evidence for deficient housing included: year structure was built, persons per room, plumbing facilities, kitchen facilities, heating fuel, sewer service, and water supply.

The Third Round rules reduced the amount of criteria of evidence of deficient housing to three: pre-1960 crowded units, which are units that have more than 1.0 persons per room; incomplete plumbing; and incomplete kitchen facilities. This reduction in the amount of criteria was decided by the Appellate Division to be within the Council's discretion and was upheld in the Supreme Court decision *In re N.J.A.C. 5:96 & 97*.

The previously discussed Mount Laurel IV decision found that the reallocated present need is no longer a component in the determination of Present Need. Therefore, the Present Need now equates to indigenous need, which means the obligation is based on deficient housing as determined by pre-1960 over-crowded units, incomplete plumbing, and incomplete kitchen facilities.

The March 2018 Econsult Report determined Fair Haven has a Rehabilitation Obligation of 0 units.

VACANT LAND ADJUSTMENT

This Plan seeks a Vacant Land Adjustment per the vacant land analysis procedure provided in N.J.A.C. 5:93-4.2 as the Borough of Fair Haven is a developed community. A Vacant Land Adjustment was prepared in July 2018. (see **Appendix A** for VLA).

Based upon the findings of the VLA, a total of 3.0 acres were identified across 4 sites. Using a density of 6 units per acre and assuming a set-aside of 20%, the 2018 VLA determined Fair Haven to have an RDP of 1 unit.

MECHANISMS FOR ADDRESSING REALISTIC DEVELOPMENT POTENTIAL

Municipalities can request an adjustment to their obligation based on the determination that there is not sufficient vacant or developable land within the municipality. As permitted by N.J.A.C. 5:93-4, a municipality can submit a Vacant Land Adjustment (VLA) that examines parcels available for development. The end result of the vacant land adjustment is the determination of the Borough's Realistic Development Potential (RDP) for new affordable housing units.

Pursuant to N.J.A.C. 5:93-1.3, sites that are designated to produce affordable housing to address the RDP shall be available, approvable, developable, and suitable according to the following criteria:

- "Available site" means a site with clear title, free of encumbrances which preclude development for low and moderate income housing. N.J.A.C. 5:93-1.3.
- "Approvable site" means a site that may be developed for low- and moderate-income housing in a manner consistent with the rules or regulations of agencies with jurisdiction over the site. A site may be approvable although not currently zoned for low- and moderate-income housing. Ibid.
- "Developable site" means a site that has access to appropriate water and sewer infrastructure, and is consistent with the applicable area wide water quality management

plan (including the wastewater plan) or is included in an amendment to the area wide water quality management plan submitted to and under review by the DEP. Ibid.

- "Suitable site" means a site that is adjacent to compatible land uses, has access to appropriate streets and is consistent with the environmental policies delineated in N.J.A.C. 5:93-4. Ibid.

The Borough proposes to address its RDP of 1 unit through the following:

Municipally Owned DPW Lot

The DPW Lot (Block 44, Lot 2) is approximately 2.2 acres in size and is bound by Third Street, Maple Avenue and Allen Street (See site map). The site currently contains the Borough DPW operations. As noted on the aerial, the facility contains a building and parking for trucks and cars. A portion of the site is undeveloped. The site is surrounded by small lot single family residences which are consistent with the zoning of the area as R-5 and R-10. The site, however, is zoned PB Public Use which is consistent with its use as the Borough DPW facility.

The Borough proposes to construct a new DPW facility on approximately 1.1 acres of the site with the new DPW building fronting on Third Street and creating between 9 and 11 lots on the remaining 1.1 acres. The lots would be developed for single family homes. Two lots would be set aside and deeded to a nonprofit at no cost for the construction of a 3-bedroom very low income affordable housing unit on each lot. One affordable family rental would count towards satisfaction of the Borough's RDP of one. The second unit would be counted towards the Borough's unmet need.

The site is appropriate for single family affordable housing:

- The site is available, approvable, developable and suitable.
- There are no known encumbrances which would prohibit or otherwise impact the development of the property in general.
- In accordance with the 2012 New Jersey Department of Environmental Protection's Land Use Land Cover (LULC), there are no wetlands or surface water resources on the property or within 50 feet.
- The site is not located within a FEMA 100-year flood plain and the site does not have steep slopes.
- The site is surrounded by compatible uses including residential dwellings and has access to appropriate rights- of- way (Third Street, Allen Street and Maple Avenue)
- The site is served by both public water and public sewer.

MECHANISMS FOR ADDRESSING UNMET NEED

The Borough is proposing to meet its 370 “unmet need” obligation through the following mechanisms: DPW Site (the surplus of 1), Business District Overlay, Borough-wide Mandatory Set Aside Ordinance, establishing an Affordable Housing Trust Fund, Methodist Church Overlay, and Accessory Apartments.

The Borough has a combined Prior Round (1987-1999) and Gap + Prospective Need (1999-2025) Realistic Development Potential RDP) of one which it will satisfy with the following affordable housing project:

Business District Overlay

The Borough proposes to partially address its unmet need by creating an Overlay zone over a portion of the Business District. As shown on the aerial, the Overlay would run from Locust Avenue, along River Road, along Smith Street and Forman Street and Fisk Street. The area to the north side of River Road with lots fronting on Navesink Ave would also be included. The proposed Overlay Business zone contains approximately 17.1 acres with lots ranging in size from 1,950 square feet to 191,000 square feet. The lots are generally developed with one and two story commercial and/or residential uses. The Overlay would permit mixed use development on a minimum lot size of 20,000 square feet. Ground floor commercial would be required with a maximum building height of 3 stories and 38 feet. A 10- to 12-foot step back would also be required at the third floor. Lots would be required to have at least 150 feet of frontage along River Road or Navesink Avenue.

A maximum residential density of 20 units to the acre would be permitted with a 20% set-aside. A maximum building coverage of 30% would apply. Sites in excess of one acre would be permitted a maximum building height of 2.5 stories/35 feet and a maximum density of 15 dwelling units/per acre with a 20% set-aside. All the affordable units would be subject to the regulations of the Uniform Housing Affordability Controls N.J.A.C. 5:80-26.1 et seq. (“UHAC”). However, as noted in the Additional Requirements section, the Borough will ensure that 13% of all affordable units will be affordable to very low income households.

There is a dire need for a new municipal facility; therefore, the Borough reserves the right to amend the Plan, if necessary, to facilitate this public need.

United Methodist Church Overlay

The existing five-acre Methodist Church site (Block 77, Lot 107) at the end of McCarter Avenue is proposed to be rezoned in order to create an overlay on the property. The site is currently zoned R-40 Single Family Resident which permits single family housing on 40,000 square foot lots. The Overlay will permit the property to be "redeveloped" for inclusionary age restricted housing with a 20% affordable age restricted set aside. A minimum lot size of three acres would be required with a maximum density of 10 dwelling units per acre. The height would be limited to three stories and 38 feet. It is projected that a total of 30 age restricted units could be developed on the site of which 20 % or a maximum of 6 units would be deed restricted affordable units subject to UHAC regulations and the Additional Requirements section of this Plan.

The site is appropriate for age restricted housing:

- The site is available, approvable, developable and suitable.
- There are no known encumbrances which would prohibit or otherwise impact the development of the property in general.
- According to the 2012 New Jersey Department of Environmental Protection's Land Use Land Cover (LULC) data, there are no surface water resources on the property or within 50 feet. The property is somewhat constrained by approximately 1.3 acres wetlands along its eastern and western borders.
- The site is not located within a FEMA 100-year flood plain and the site does not have steep slopes.
- The south eastern corner of the site (approximately 6,000 sq. ft.) is developed with a cell tower.
- The site is surrounded by compatible land uses. As shown on the aerial map, the site is surrounded on three sides by publicly owned land which is partially developed for active recreational uses including tennis courts and ballfields. The site is accessed by McCarter Avenue, an improved municipal street which is developed with single family homes. The McCarter Avenue lots are zoned R-10 Single Family Resident which permits single family homes on 10,000 square foot lots
- The site is served by both public water and public sewer.

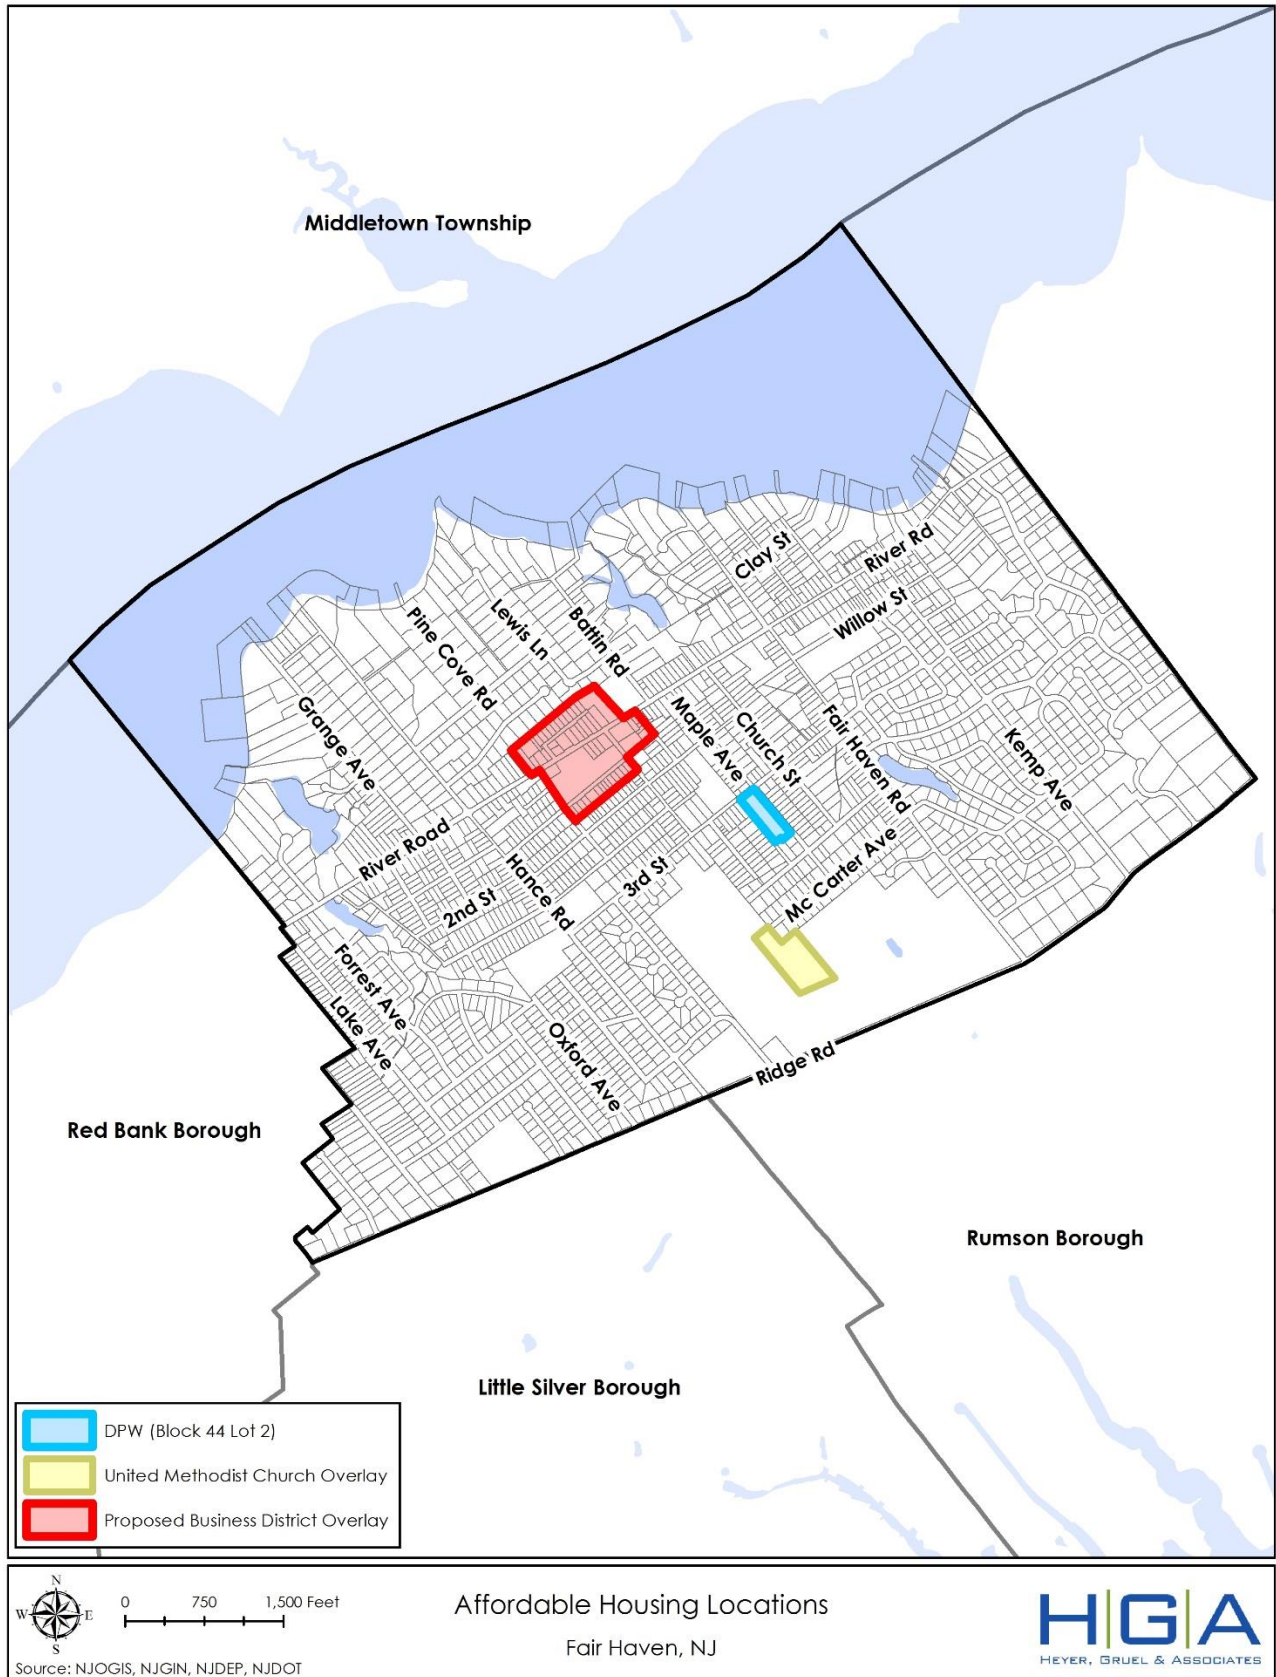

Accessory Apartments

The Borough will adopt an Accessory Apartment Ordinance which will require the standard 10-year deed restriction as per N.J.A.C. 5:93-5.9(e), allow for units to be produced in no particular order as to whether the unit is very low, low or moderate income, not require any particular bedroom mix as per N.J.A.C. 5:93-5.9(b) and will not require minimum unit sizes. The Accessory Apartment Program will apply to a maximum of 10 units and will offer subsidies of up to \$25,000 a unit.

Borough-Wide Mandatory Set-Aside Ordinance

The Borough will adopt a Borough-wide Mandatory Set-Aside Ordinance (MSO) which will require that any site that benefits from a rezoning, variance or redevelopment plan approved by the Borough or one of its boards that results in a multi-family residential development of five (5) or more units will require an affordable housing set-aside 20%.

The adoption of the MSO will not give any developer the right to any such rezoning, variance, redevelopment designation or other relief, or establish any obligation on the part of Fair Haven to grant such rezoning, variance, redevelopment designation or other relief.

SUMMARY OF FAIR SHARE COMPLIANCE

Borough of Fair Haven Fair Share Obligation Summary

Rehabilitation Obligation	0
RDP	1
DPW Lot- Single-Family Affordable	1
Total Unmet Need	370
DPW Site	1
Accessory Apartments	10
Methodist Church Overlay	6
Business District Overlay	
Mandatory Set-Aside Ordinance	

ADDITIONAL REQUIREMENTS

Very Low-Income Requirement: The Borough will ensure that 13% of all of the affordable units, with the exception of units constructed as of July 1, 2008 and units subject to preliminary or final site plan approval, will be affordable to very low-income households. Half of the very low-income units will be made available to families.

Rental Bonus Credits: All rental bonus credits claimed in this plan have been applied in accordance with N.J.A.C. 5:93-5.15(d).

Low/Moderate Income Split: At least half of the units addressing the Borough's obligation shall be affordable to very-low income and low-income households, and the remaining will be affordable to moderate-income households.

Round 3 Family Requirement: At least half of the units addressing the Borough's obligation will be available to families.

Age Restricted Cap: The Borough agrees to comply with COAH's Round 2 age-restricted cap of 25%. The Borough is not requesting a waiver to exceed the age-restricted cap.

Affirmative Marketing: The individual developers will be responsible to ensure that proper affirmative marketing of all of the affordable units is properly implemented.

Appendix A: Vacant Land Adjustment

Borough of Fair Haven
Vacant Land Assessment
July 2018

Introduction

A Vacant Land Assessment was prepared in accordance to the rules as prescribed in N.J.A.C. 5:93-4 for the Borough of Fair Haven. The VLA incorporates data from the 2012 Land Use Land Cover released by NJDEP, 2017 floodplain data released by FEMA, a 300-foot buffer for Category 1 waterways, slopes in excess of 15%, and 2018 Tax Assessment Records. The VLA recognizes four (4) sites capable of supporting development within the Borough.

Analysis

The VLA analyzes potential affordable housing opportunities area on publicly- and privately-owned vacant parcels located within the Borough. 132 parcels were analyzed in the Borough. Of these 131 parcels, 43 parcels were listed as property class 1- vacant, 34 were listed as class 2- residential, 3 were listed as class 15A- public schools, 2 were listed as class 15B- private schools, 26 were listed as 15C- public, 5 were listed as class 15D- church & charitable, 8 were listed as class 15F- Other Exempt, and 11 were listed as class 4A- Commercial.

The parcels were also analyzed within the context of the State Development and Redevelopment Plan. The majority of the parcels (103 parcels) that were analyzed are located within Planning Area 1: Metropolitan. The remaining 29 parcels included in this Vacant Land Assessment are located within Planning Area 5: Environmentally Sensitive.

Areas constrained by wetlands, surface water, slopes in excess of 15%, the 100-year floodplain and land that falls within 300-feet of a Category 1 waterway **are subtracted from the site's** total acreage, which yields an unconstrained acreage. There are approximately 59.7 acres of environmentally constrained acres across the 132 parcels analyzed.

Per N.J.A.C. 5:93-4, sites that have less than one-half acre of unconstrained acreage are deemed undeveloped. Oversized lots were also analyzed for potentially being capable of supporting development. However, none of the oversized lots were deemed developable as the parcels are currently developed.

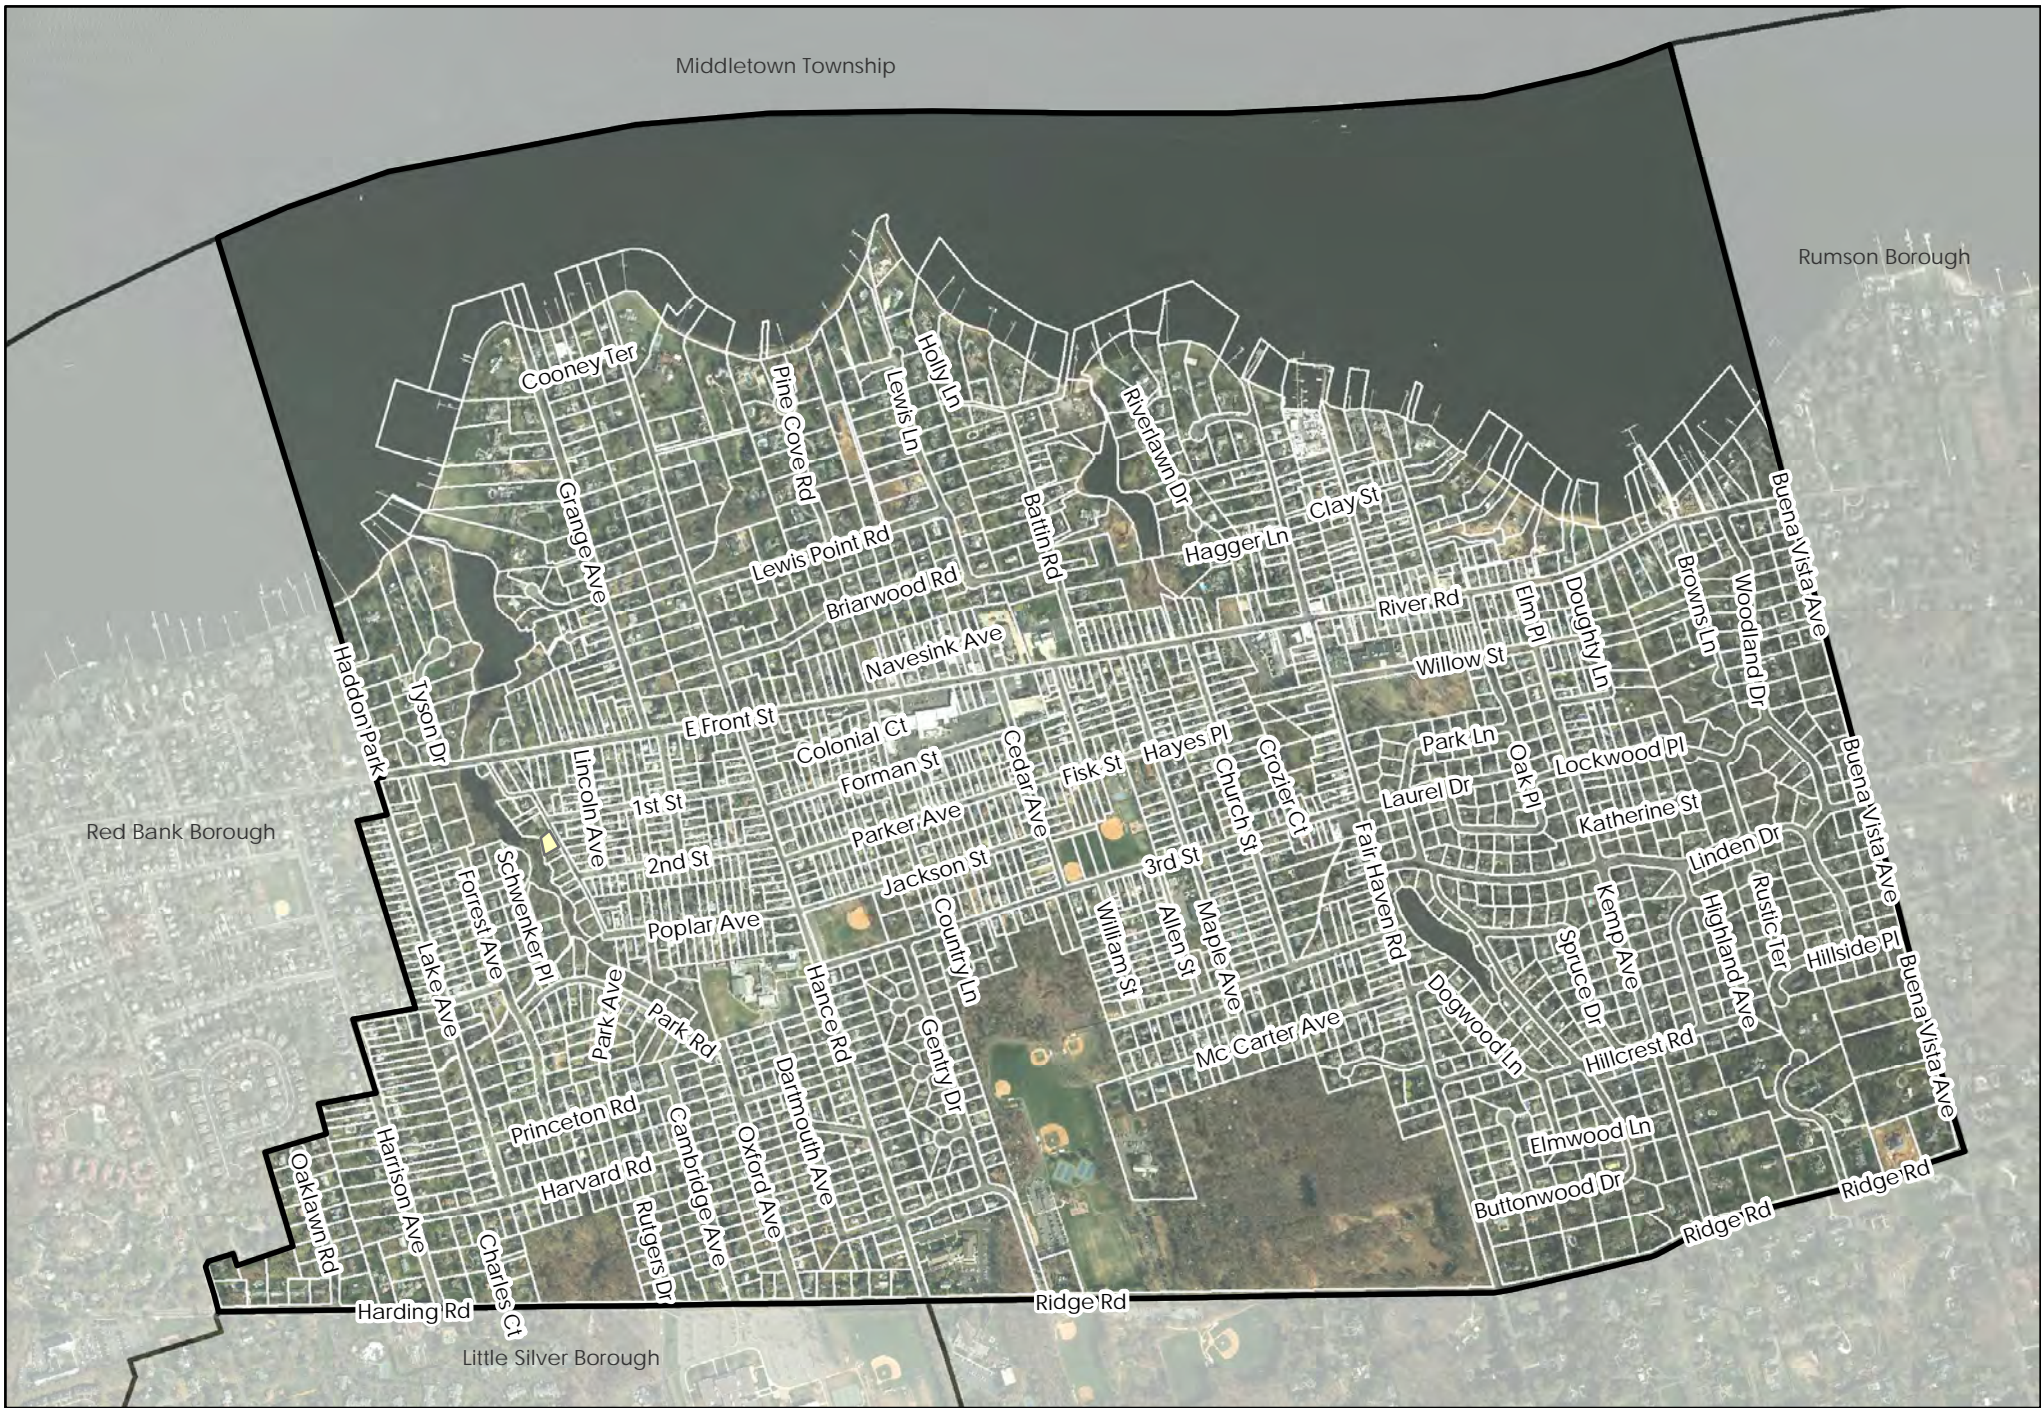

Results

The following sites were identified as being vacant and potentially developable. The **site's** RDP has been adjusted to represent an affordable housing set aside of 20%.

Borough of Fair Haven Vacant Land Assessment								
Site ID	Block	Lot	Total Acreage	Constrained Acreage	Unconstrained Acreage	Density	Total Units	RDP
1	23	30.5	0.5	0.0	0.5	6.0	3	0
2	67	32	1.1	0.0	1.1	6.0	6.6	1
3	78	13.13	0.7	0.0	0.7	6.0	4	0
4	78	13.10	0.7	0.0	0.7	6.0	4	0
TOTAL			3.0	0.0	3.0	-	18	1

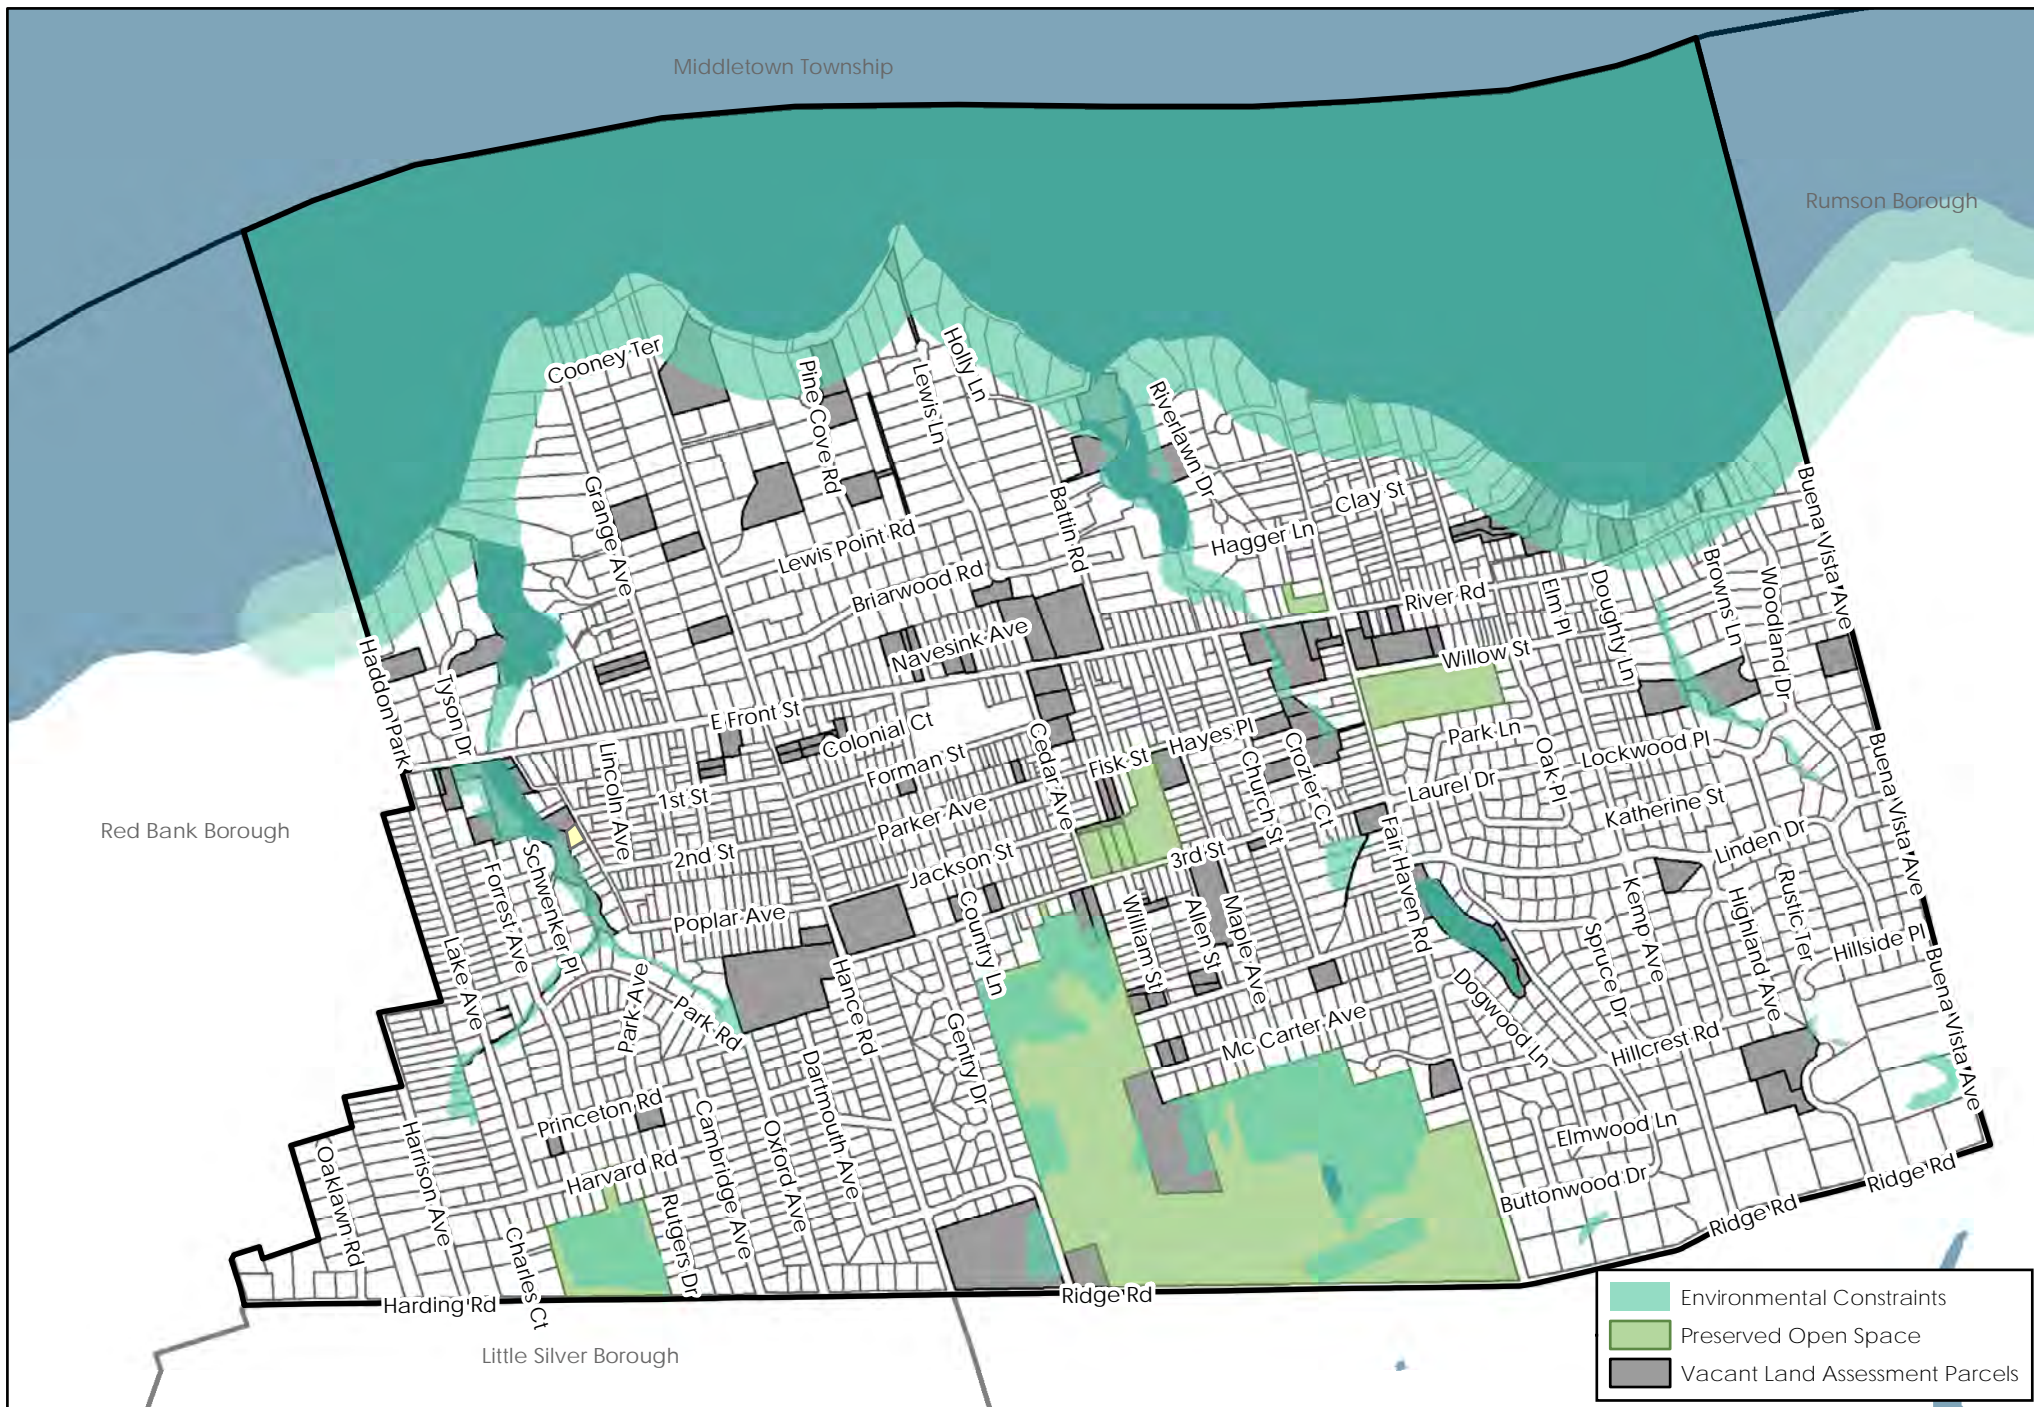

Conclusion

Due to limitations from environmental constraints and lack of vacant land, the Borough of Fair Haven has an RDP of 1 unit.
