Scope Of Project: This project involves the installation of three dimensional letters/logo on the wall and the replacement of the former Fair Haven Animal Hospital free standing street sign.

1. Wall Sign – Overall dimensions of 26” H x 75” W (13.5 sq ft). Individual letters are precision laser cut from 3/8” thick aluminum, custom painted per client requirements, and flush stud mounted to building exterior. There is no exposed mounting hardware.
2. Free Standing Street Sign – Overall dimensions of 41” H x 70.25” W x 2” Thick (20 sq ft). Sign will be produced using HDU (high density urethane). This material will not splinter, warp, attract bees and birds, and it is an excellent substrate for painting. This is a double sided sign and it will be installed using the existing posts. The hand painted lettering will be carved into the flat sign surface and be painted per client requirements.
